DETAILED ACTION

Allowable Subject Matter

1. Claims 1-35 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: It is agreed that the prior art of record fail to teach or suggest, alone or in combination, the combination of the following limitations: "the first electrode (cathode electrode) substantially totally occupies the space situated between the second electrode (anode electrode) and the portion of the means forming modulation electrode that is the most distant from the second electrode (anode electrode)" in a manner claimed in claims 1, 7, 10, 24 and 25. It is further noted that the above recited limitation does not represent arrangement in which the placement of the first electrode (cathode electrode) on the bottom of deep trenches realized in the means forming modulation electrode as described in page 18, paragraphs 6 and 7 presented in applicants argument filed on 4-19-04. It is for these reasons in combination with all the other limitations in the independent claims 1, 7, 10, 24 and 25, that claims 1-35 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
